ADVANCE INFORMATION

INSTRUCTIONS TO SUPERVISORS AND CANDIDATES

- **4060/2 Question Papers** to be availed to candidates between one to two weeks in advance before the examination date to allow for preparation time by the **Subject teacher** and the **candidates**.
- **PREPARATORY WORK** should be labelled and submitted together with the examination.
- Always refer to the main examination time table for exact examination dates.
- Candidates are free to use any media of their choice, with the exception of **OIL PAINT**.

INSTRUCTIONS TO INVIGILATORS

- **PREPARATORY WORK** should be taken into the examination room and should be clearly labelled **PREPARATORY WORK** and at the end of the examination it must be submitted together with the examination work.
- **4060/2** options A, B and C and **4060/3** options A and B are all allocated **six hours** each chosen option.
- Allow at least **2m²** working area per candidate.

This Specimen Advance Information consists of 2 printed page.

INSTRUCTIONS TO EXAMINATION CENTRES

CONDUCT OF EXAMINATIONS

- All examination work must be done and completed within the time allocated (6 hours).
- The invigilator must not offer assistance or comment on the work of the candidates. Any statement made about the instructions may only take the form of translation of instructions into other languages if the centre sees a need for this and if necessary expertise is available.
- 3 Dimensional works of Art should not exceed **60 cm** height × **50 cm** × **50 cm** width.
- It is essential that care should be taken to pack the candidate's work in suitable containers that will withstand the journey and protect the work from damage. Care should be taken with fragile items such as pottery and sculpture.

CLAY WORK SHOULD BE FIRED BEFORE SUBMISSION

- 4060/2,3 should be dispatched to ZIMSEC after the completion of the examination.
- Include an inventory/register of the contents of the packaging.
